WAKE FOREST SCHOOL OF MEDICINE  
WINSTON-SALEM, NC

## *In Dedication...*

It is with great enthusiasm and unanimous opinion that we, the Class of 2015, dedicate this yearbook to the one and only Dr. Leslie Renee Ellis.

Dr. Ellis is truly our class mom, the one who has faithfully walked all four of these years with us. We had no idea how blessed we were when we were first introduced to our class mentor. She told us her story, growing from a candy stripper into one of the most phenomenal hematologist-oncologists. And most importantly, we learned of her unwavering loyalty to her alma mater, Duke University.

One year later, we were back in the classroom with her, learning the intricacies of the very subspecialty to which she had dedicated her life. Her teaching was exceptional, and her dedication to students unparalleled. She held extra study sessions with us, running through CBC after CBC. She answered our emails about the finest minutia about hematology at 2 AM in the morning. The night before our exam, she walked through the fishbowl and library, candy bag in hand, just to see if we had any lingering questions, or just needed a little sugar. After successfully finishing our Hem/Onc block, she threw us a party in her own backyard. Here was THE Dr. Ellis, leukemia extraordinaire, with an apron on, tongs in hand, flipping burgers for us! As we progressed through second year, the morning of our block exams always included the appearance of no less than eight boxes of fresh hot Krispy Kreme donuts in the student lounge.

Moving into third year, a lucky handful of us had the privilege of rotating through the leukemia service, witnessing Dr. Ellis in action. It was stunning to see that she could be even more dedicated to another group of people, her patients! There's a reason her patients are fiercely loyal to her as well. Since we were scattered among different rotations that year, our class decided to have a reunion cook-out in Miller Park. Of course Dr. Ellis was there. We wouldn't be a whole class without her!

And now as we near the end of our fourth and final year of medical school, we look back and reflect with full hearts - Dr. Ellis, you have made a difference in the Class of 2015, and are a large part of why we are becoming the physicians we are. Thank you for everything, we love you!

### How Has It Happened?

Yes, we did produce a near perfect Republic. But will they keep it, or will they, in the enjoyment of plenty, lose the memory of freedom. Material abundance without character is the surest way to destruction.

# WINTER FORMAL

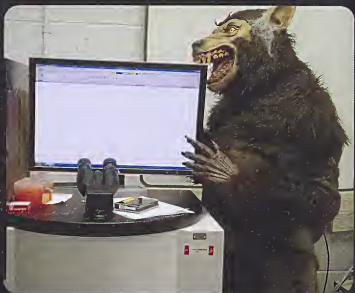

## BOONE COHORT

The Wake Forest PA program worked in partnership with Appalachian State University to develop a distance campus in Boone to train primary care physician assistants who could help address the critical need for health care providers in western North Carolina. Projected shortages of primary care clinicians pose serious threats to health care access, particularly in rural areas in the western part of the state, and these underserved counties are the types of locations where the population can directly benefit from physician assistants. These 24 physician assistant students make up the inaugural class for the Wake Forest PA Program's Boone campus.
